## STEPHENS SPRING RESTORATION PROJECT, STEINHATCHEE, FLORIDA

### ADDENDUM #1

1. Under Scope of Work, Item #11, delete St. Augustine sod and replace with Bermuda sod.
2. Under Scope of Work in first paragraph and under Attachment A Bid Form, Item #001, change 200 cubic feet to 200 cubic yards of sediment, plus or minus.
3. Under Scope of Work, add the following items:
  - A. Item #16 - In parking area, from edge of blacktop, add a 12" wide x 6" deep strip of limerock.
  - B. Item #17 – In parking area, before the placement of sod, remove top 6" of existing soil and replace with good soil.
  - C. Item #18 – Remove existing limerock overburden and remove from project site.
  - D. Item #19 – Payment will be made within 45 days from receipt of invoice.
  - E. Item #20 – In parking area, dirt density of 95% shall be verified with lab tests by contractor and paid for by contractor.
